

WET COLLECTION SERIES FOR COMBUSTIBLE DUST

NFPA AND OSHA COMPLIANT DUST COLLECTION

The background of the central section is a dynamic, high-speed photograph of water splashing, creating a circular pattern of droplets and bubbles. Overlaid on this is a large, white, stylized 'C' logo. The word 'SUPERIOR' is written in a bold, white, italicized sans-serif font across the middle of the 'C' logo.

Pro Series WB

WET BOOTHS

- Modular design for easy erection and expansion
- Low intakes for easy booth cleanup
- Wide slot design for smooth laminar flow of air
- Regain air at front of the booth for push/pull flow keeping dust going down and away from your workers breathing zone.
- Acoustical panels for super quiet operation.
- LED Light panels offer the brightest and most energy efficient operation.

Powder coated pro-series booth panels give you the most professional look in the industry. Can be powder coated to match your color scheme in the shop. Get the Superior competitive edge over your competition when showing off your facility and capabilities.

AVAILABLE IN ANY SIZE BOOTH. STANDARD PACKAGES INCLUDE:

| Width | Height | Depth |
|-------|--------|--------|
| 8' | 8' | 8' |
| 12' | 10' | 12' |
| 16' | 12' | 16' |
| 20' | TALLER | 20' |
| 24' | | 24' |
